

FIRESTICK/FIRE TV SETUP

- 1. First you have to enable "downloads from unknown sources" and "debugging mode" in the developer options.
- 2. Go to
Settings.
My fire TV
Developer Options.
Set both to ON
- 3. Then go to the home page of the firestick, next to home on the left you will see a search key, click it and type in "downloader"
- 4. Download this app, then open
- 5. You will come to a http screen, click it and type this link, using capitals where shown.
- 6. infinity2.com/infiniq.apk
- 7. Once Entered the Link, Download and Install. Once you open you will come to the login screen, you can now enter your credentials.

Updated Advice

Once downloaded you should follow these settings:

With Amazon winning rights to show football and general streaming, it is advisable to change some settings on the sticks and Amazon boxes.

This will stop them just removing apps on the next update.

So to protect your stick from the next Amazon update it is suggested

You turn off the Data collection and app usage data in the settings under preferences and security . Would also recommend turning off auto updates .

- 8.** Settings/Preferences/privacy settings
- 9.** Device Usage Data TURN OFF
- 10.** Collect App Usage Data TURN OFF
- 11.** Settings/Preferences/Data Monitoring TURN OFF
- 12.** Settings/My Fire TV/Developer Options
- 13.** ADB Debugging TURN OFF
- 14.** Settings/Applications/Appstore
- 15.** Automatic Updates TURN OFF
